### WORK EXPERIENCE

---

#### Senior Software Engineer / Ramani

*Dar es Salaam, Tanzania / June 2020 - Present*

- I built features for the Ramani API and web [Dashboard](#) that allowed us to sign new customers before the planned launch (Node js, Express, React, Heroku, Firebase)
- Migrated a 1+ years production Database with over 150k documents from Firebase firestore to MongoDB(Node js, Firebase, Mongo)
- I wrote powerful queries using mql that power our Dashboard

#### Community Lead / Facebook Developer Circles Kampala

*Kampala, Uganda / September 2018 - March 2021*

- Managed and grew the Developer Circles Kampala online community from 100 to over 2000 members
- Worked with the Global Developer Programs team at Facebook as an overall advisor for the Developer Circles program.
- Organized technology-related programs, meetups, and events for example [react meet up kla](#),

#### Software Engineer / Andela

*Kampala, Uganda / July 2018 - March 2020*

- Developed a maintenance issue reporting and tracking application (Flask/Python, Postgres, React, Redux, Redux-thunk, Jest, Enzyme, Pytest, Heroku)
- Collaboratively worked with a team of 5 to develop a blogging application we called Authors Haven in a period of 12 weeks. (React, Redux, Redux-Thunk, Django/Python, Postgres, Jest, Enzyme, Pytest, Heroku)
- Remotely managed progression of 10 developers in the Kigali Andela office over a 2months period by mentoring them in teams during simulations projects work (Node, Express, Postgres, React, Redux, Redux-Thunk, Jest, Enzyme, Mocha)

#### Software Engineer / iBuild Global
